Carrie Fisher was a Hollywood actress and writer most known for playing Princess Leia in the Star Wars series. In the 1970's she was cast for the role of Princess Leia and starred alongside Mark Hamill and Harrison Ford. The three stars would later become lifelong friends.

She would reprise her role and appear in at least six other Star Wars films. She even appeared on the 1978 Star Wars Holiday Special. She would later admit that she would not have accepted the role had she known that it would have such a major effect on the lives of her parents.
